Before starting to use m-station, the product must be assembled carefully in accordance with the assembly manual included. Munin ApS is not responsible for injury or damage to persons or property resulting from incorrect assembly of the product. m-station is a training apparatus developed for professional football training. m-station must therefore never be used by children without prior instruction from an adult skilled in training. Children under 8 must only use m-station if an adult is present. Particular attention is drawn to the fact that small children, if m-station is not used in accordance with instructions, risk becoming trapped in the assembled netting. m-station must not be assembled, dismantled, moved or otherwise handled without an adult being present. Munin ApS recommends that m-station is only used for the exercises explicitly presented on www.muninsports.com. Munin ApS disclaims all responsibility for injury and damage to persons or property caused during storage, exercises or other use being undertaken deviating from or in contradiction to the use presented on www.muninsports.com. Storage or use of m-station deviating from or in contradiction of instructions for use takes place at the user's own risk.
